Attention: Christal Dennis

Regarding what appears to be either a complaint, or simply an inquiry submitted by Lee Miller, it appears that he was told by one of the commission's complaint specialists that the transactions have been reported correctly. The facts are that Joe Yocca has court mandated child support withheld from his paycheck and then paid to the California State Disbursement Unit each pay day, as is disclosed on the related FEC3 filings. The reports analyst assigned to the committee initiated a phone call to me many months ago regarding the description on the reports and when it was explained to him, he agreed that it was being reported correctly. Sincerely,

David Bauer, Treasurer
